Infernal Necromancy  
is a secret arcane art.

It has been practiced  
since the early days  
in Britannia. But the  
art is shunned by  
most and should be  
kept a secret.

Necromancy is a large  
field of knowlegde of  
skills. It concerns:

The study of death,  
communication with  
the dead. the control  
and summoning of the  
dead, ressurection and  
animation of the dead,  
and imortallity.

Infernal Necromancy  
also rely on greater  
powers of the  
underworld to to  
increase influence in  
this.

This is usually by  
contacting demons,  
striking deals with  
demons, persuading  
demons into service  
and summoning long  
dead heros and villans  
and binding them to  
obidiance.

This kind of  
knowledge is secret.  
But joining the cult, it  
will slowly be  
revealed in a fasion  
that hopefully will let  
you keep your sanity.  
Only people with a  
burning desire for  
theese powers should  
join the cult.
